WebTrader Platform

WebTrader is a proprietary trading platform designed by InstaForex that allows you to trade Forex, CFDs, and futures online using a web browser.

This version boasts the same set of features and a tool suite as you have on the desktop. All trading instruments and account types are available on this web platform.

Getting started

Trading Forex has never been easier with WebTrader by InstaForex. There is no need to download and install any software. Trade directly from your internet browser.

And there you go

Enter your account number and password to log in to the platform.

Platform Overview

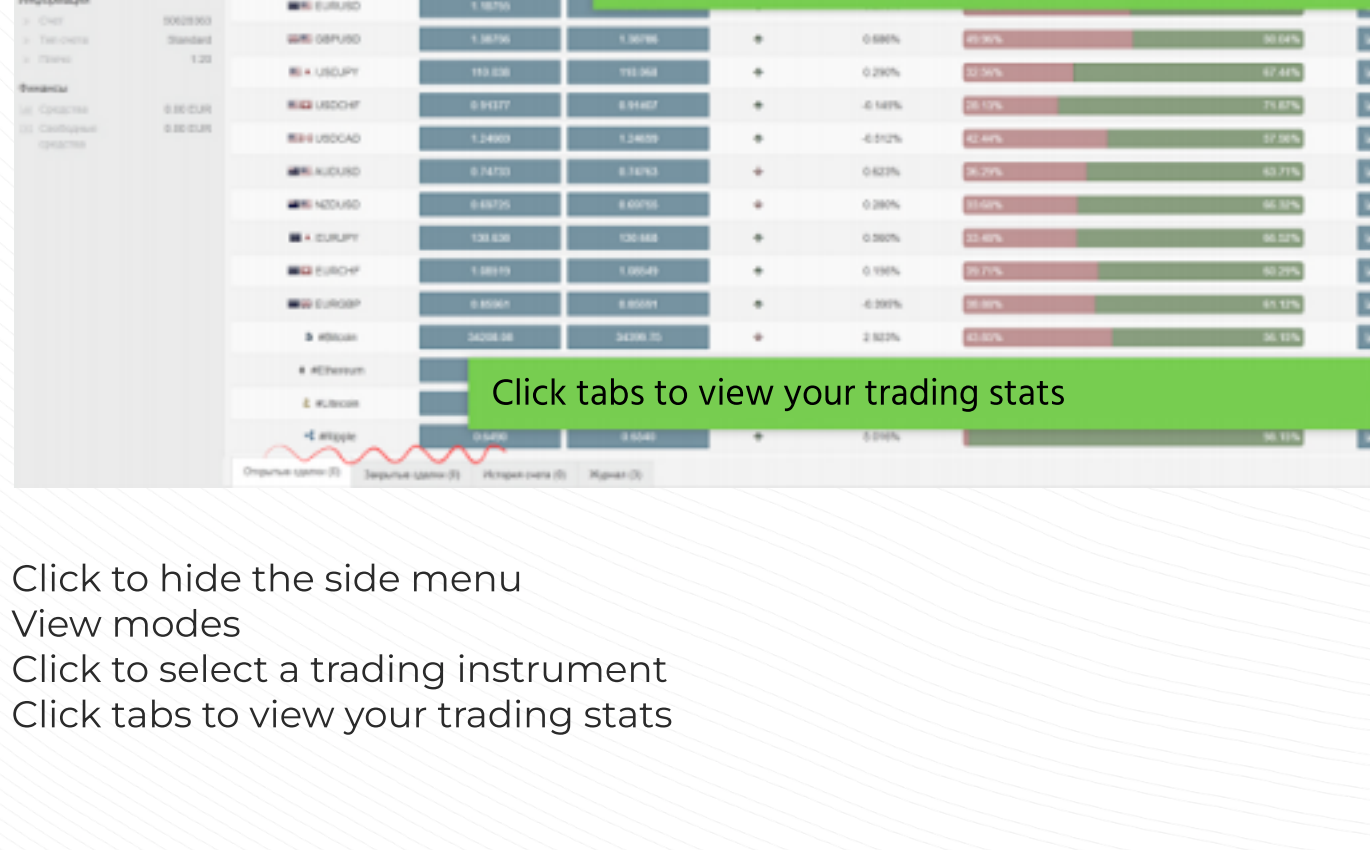

WebTrader has three interface modes: Classic, Dashboard, and Chart.

An intuitive interface allows you to easily navigate the platform.

Apart from the view modes, the side menu also features information on your account and your funds. To hide the menu, click the icon in the top left corner.

To choose an instrument you want to trade, click Trading Instruments.

At the bottom of the platform, you will find a window displaying all your trades, the history of transactions, and your activity log.

HOW TO TRADE

To open a trade, click Sell or Buy. You will find these buttons in each view mode.

Click the buttons to open a trade

Then a window will pop up where you can set the parameters of your trade such as type of execution, volume, and stop-loss/take-profit orders. You can also leave comments here if necessary.

Once you have opened a trade, you will see its ticket at the bottom of the Open trades tab.

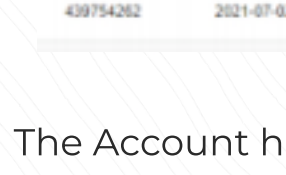

Here you can close or modify your open trade. To do this, left-click on the ticket number, and you will see the settings window.

If you want to close your trade quickly, just click the cross button on the right.

WebTrader Platform

WebTrader has all the features you need to make your trading experience more convenient. With the WebTrader platform, you can access your account on any device from anywhere in the world.

Risk Warning:

CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. 72.54% of retail investor accounts **lose money when trading CFDs**. You should consider whether you understand how CFDs work and whether you can afford the risk of losing your funds.
